

A friendly health reminder to our patients:

We are aware of the concerns surrounding the Coronavirus outbreak. We will be closed for the next 2 weeks to do our part in helping to slow the spread of this virus. We are planning on resuming normal patient care April 3, 2020—unless otherwise mandated. If you have a dental emergency our phones will still be answered during normal business hours, please do not hesitate to contact us. Please call the main number for any emergencies and be aware that all calls will be forwarded to our office coordinator. If there are an abundance of calls you may be forwarded to voicemail, be assured that your call will be returned within 24 business hours.

We are looking forward to seeing everyone on the other side of all this craziness. Be healthy, be safe, be well, and be caring to one another!

The Team @ Precision Family Dental
